SAP SF RMK Course

Module 1: Introduction to SAP RMK

- Overview of SAP SuccessFactors Talent Acquisition Suite (RCM, RMK, Onboarding)
- Role of RMK in the recruiting process
- Differences between RCM (process management) and RMK (marketing & branding)
- Candidate experience lifecycle (attract → engage → apply → hire)
- RMK–RCM integration overview

Module 2: Recruiting Marketing Setup

- Provisioning & Admin Center overview
- Enabling RMK in a SuccessFactors instance
- Career Site Builder (CSB) introduction
- Global career site vs local sites (multi-brand, multi-country setup)
- RMK site architecture (Landing pages, Category pages, Search pages)

📌 Hands-on: Set up a basic RMK-enabled subaccount with CSB (This will be One to One Connection Linked from SF to CSB, multiple subaccount we can't).

Module 3: Career Site Builder (CSB)

- Page types: Landing page, Category page, Job Search page, Content page
- Branding & design in CSB (colors, layouts, headers, footers)
- Widgets in CSB (search, call-to-action, image, video, map)
- Creating responsive & mobile-first career sites
- Multi-language support for global career sites

📌 Hands-on: Build a sample landing page in CSB

Module 4: Job Distribution & SEO

- Job postings in RMK vs RCM
- SEO optimization for job postings
- URL structures, meta tags, keyword optimization
